Transcript of an Interview
Conducted by
Jeffrey L. Sturchio and Arnold Thackray
at the
University of Pennsylvania
on
23 April 1985
THE BECKMAN CENTER FOR THE HISTORY OF CHEMISTRY

Oral History Program

RELEASE FORM

This document contains my understanding and agreement with the Center for History of Chemistry with respect to my participation in a tape-recorded interview conducted by Arnold Thackray and Jeffrey L. Sturchio on 23 April and 23 July 1985. I have read the transcript supplied by the Center and returned it with my corrections and emendations.

1. The tapes and corrected transcript (collectively called the "Work") will be maintained by the Center and made available in accordance with general policies for research and other scholarly purposes.

2. I hereby grant, assign, and transfer to the Center all right, title, and interest in the Work, including the literary rights and the copyright, except that I shall retain the right to copy, use and publish the Work in part or in full until my death.

3. The manuscript may be read and the tape(s) heard by scholars approved by the Center subject to the restrictions listed below. The scholar pledges not to quote from, cite, or reproduce by any means this material except with the written permission of the Center.

4. I wish to place the following conditions that I have checked below upon the use of this interview. I understand that the Center will enforce my wishes until the time of my death, when any restrictions will be removed.
   a. [ ] No restrictions for access.
   b. [ ] My permission required to quote, cite, or reproduce.
   c. [ ] My permission required for access to the entire document and all tapes.

This constitutes our entire and complete understanding.

(Signature)  
Arnold O. Beckman

(Date)  9/27/88

(Revised 24 February 1988)
This interview has been designated as Free Access.

One may view, quote from, cite, or reproduce the oral history with the permission of CHF.

Please note: Users citing this interview for purposes of publication are obliged under the terms of the Chemical Heritage Foundation Oral History Program to credit CHF using the format below:

The Chemical Heritage Foundation (CHF) serves the community of the chemical and molecular sciences, and the wider public, by treasuring the past, educating the present, and inspiring the future. CHF maintains a world-class collection of materials that document the history and heritage of the chemical and molecular sciences, technologies, and industries; encourages research in CHF collections; and carries out a program of outreach and interpretation in order to advance an understanding of the role of the chemical and molecular sciences, technologies, and industries in shaping society.
ARNOld O. BECKMAN

1900 Born in Cullom, Illinois, 10 April

Education

1922 B.S., chemical engineering, University of Illinois
1923 M.S., physical chemistry, University of Illinois
1928 Ph.D., photochemistry, California Institute of Technology

Professional Experience

1924-1926 Research Engineer, Bell Telephone Laboratories
1926-1929 Instructor, California Institute of Technology
1929-1940 Assistant Professor, California Institute of Technology
1934 Vice President, National Inking Appliance Company
1937-1939 Vice President, National Technical Laboratories
1939-1940 President, National Technical Laboratories
1944-1958 President, Helipot Corporation
1946-1958 President, Arnold O. Beckman, Inc.
1940-1965 President, Beckman Instruments, Inc.
1965- Chairman of the Board, Beckman Instruments, Inc.

Honors

1960 Illinois Achievement Award, University of Illinois
1964-1974 Chairman, Board of Trustees, California Institute of Technology
1965 Honorary Sc.D. degree, Chapman College
1969 Honorary LL.D. degree, University of California at Riverside
1969 Honorary LL.D. degree, Loyola University in California
1974 Scientific Apparatus Makers Association Award
1977 Honorary LL.D. degree, Pepperdine University
1977 Honorary Sc.D. degree, Whittier College
1977 Arnold O. Beckman Conference in Clinical Chemistry, established by American Association for Clinical Chemistry
1980 Arnold O. Beckman Professorship of Chemistry, established by California Institute of Technology
1981 Hoover Medal, American Association of Engineering Societies
1981 Life Achievement Award, Instrument Society of America
1982 Diploma of Honor, Association of Clinical Scientists
ABSTRACT: In this interview Arnold Beckman begins with his teenage experience as an industrial chemist at a local gas works in Bloomington, Illinois and the Keystone Iron and Steel Works. This is followed by reflections on his student days at the University of Illinois, with special emphasis on some of the faculty and students. The central portion of the interview considers Beckman as a student and faculty member at Caltech and includes his early experiences with instrumentation, patents, and serving as an expert witness. The interview continues with Dr. Beckman discussing the origin of the pH meter and DU spectrophotometer, and concludes with the beginning stages of manufacturing and sales, emphasizing the principles used to build National Technical Laboratories, the company that would become Beckman Instruments.

INTERVIEWERS: Jeffrey L. Sturchio holds an A.B. in history from Princeton and a Ph.D. in the history and sociology of science from the University of Pennsylvania. He is Associate Director of the Center for History of Chemistry and Adjunct Assistant Professor of History and Sociology of Science at the University of Pennsylvania.

Arnold Thackray majored in the physical sciences before turning to the history of science, receiving a Ph.D. from Cambridge University in 1966. He has held appointments at Oxford, Cambridge, Harvard, the Institute for Advanced Study, the Center for Advanced Study in the Behavioral Sciences, and the Hebrew University of Jerusalem. He is Director of the Center for History of Chemistry, and Professor of History and Sociology of Science at the University of Pennsylvania, and the 1983 recipient of the Dexter Award for outstanding contributions to the history of chemistry.

NOTE: The following table correlates the tapes of the Beckman interview with the pages of the transcript.

Tape 1, side 1..........................pp. 1-12
Tape 2, side 2..........................pp. 12-22
Tape 1, side 3..........................pp. 22-30
Tape 2, side 4..........................pp. 30-38
Tape 3, side 5..........................pp. 38-43
# TABLE OF CONTENTS

1 Precollege Experiences  

3 Undergraduate Education at the University of Illinois  

11 Introduction to Caltech and Work at Bell Labs  

19 Graduate Education at Caltech  

24 Faculty Member at Caltech  
Early research plans and activities. Graduate students: L. Reed Brantley, Ralph Wenner, and Albert Myers. Caltech in the late 1920s and the 1930s. Consulting work.

26 Research, Patents, and Other Activities  

37 Early History of National Technical Laboratories  
Marketing and business relationships. Development of NTL. Relationship with instrument inventors and developers. Development of the DU spectrophotometer. The early instrumentation industry. Other activities of NTL.
