

CHEMICAL HERITAGE FOUNDATION

O. THEODOR BENFEY

Transcript of an Interview  
Conducted by

James J. Bohning

at the

Chemical Heritage Foundation

on

24 May 1991 and 5 June 1991

With Subsequent Additions and Corrections

THE BECKMAN CENTER FOR THE HISTORY OF CHEMISTRY

Oral History Program

RELEASE FORM

This document contains my understanding and agreement with the Beckman Center for the History of Chemistry with respect to my participation in a tape-recorded interview conducted by James J. Bohning on 24 May and 5 June 1991.

I have read the transcript supplied by the Beckman Center and returned it with my corrections and emendations.

1. The tapes and corrected transcript (collectively called the "Work") will be maintained by the Beckman Center and made available in accordance with general policies for research and other scholarly purposes.
2. I hereby grant, assign, and transfer to the Beckman Center all right, title, and interest in the Work, including the literary rights and the copyright, except that I shall retain the right to copy, use and publish the Work in part or in full until my death.
3. The manuscript may be read and the tape(s) heard by scholars approved by the Beckman Center subject to the restrictions listed below. The scholar pledges not to quote from, cite, or reproduce by any means this material except with the written permission of the Beckman Center.
4. I wish to place the following conditions that I have checked below upon the use of this interview. I understand that the Beckman Center will enforce my wishes until the time of my death, when any restrictions will be removed.
  - a.  No restrictions for access to transcript in final form.
  - b.  My permission required to quote, cite, ~~or reproduce.~~ *or B*
  - c.  My permission required for access to earlier versions of document and all tapes.

This constitutes our entire and complete understanding.

(Signature)

*Theodor Benfey*

(Date)

November 9, 1993

This interview has been designated as **Restricted Access**.

Permission of interviewee required to view, quote from, cite, or reproduce the oral history.

*Please contact CHF to request permission.*

Chemical Heritage Foundation  
Oral History Program  
315 Chestnut Street  
Philadelphia, Pennsylvania 19106

The Chemical Heritage Foundation (CHF) serves the community of the chemical and molecular sciences, and the wider public, by treasuring the past, educating the present, and inspiring the future. CHF maintains a world-class collection of materials that document the history and heritage of the chemical and molecular sciences, technologies, and industries; encourages research in CHF collections; and carries out a program of outreach and interpretation in order to advance an understanding of the role of the chemical and molecular sciences, technologies, and industries in shaping society.

OTTO THEODOR BENFEY

1925 Born in Berlin, Germany on 31 October

Education

1945 B.Sc., chemistry, University College, London  
1947 Ph.D., chemistry, Univeristy College, London

Professional Experience

1947-1948 London University Post-doctoral Traveling Fellow,  
Columbia University  
Haverford College,  
1948 Instructor of Chemistry  
1948-1955 Assistant professor of Chemistry  
1955-1956 Associate professor of Chemistry  
1955-1956 Harvard University, Research Fellow  
Earlham College  
1956-1973 Associate professor of Chemistry and History of  
Science; Professor of Chemistry and  
History of Science  
1971-1972 Chairman of Chemistry Department  
Guilford College  
1973-1988 Dana Professor of Chemistry and History of Science  
periodically Chairperson of Chemistry Department  
1977-1979 Clerk of Faculty  
1985-1986 International Christian University, Mitaka, Tokyo,  
Japan, Visiting Professor of Chemistry and  
Research Fellow  
Chemical Heritage Foundation  
1989- Editor, Beckman Center News; Othmer Library News;  
Chemical Heritage  
University of Pennsylvania  
1990- Adjunct Professor, Department of History and  
Sociology of Science

Honors

1961 Doan Distinguished Teacher Travel Award,  
Earlham College  
1967 Manufacturing Chemists Association Chemistry  
Teacher Award  
1967-1968 Danforth Foundation E. Harris Harbison Award for  
Distinguished Teaching  
1970-1971 Fulbright-Hays Faculty Research and Study Award,  
Kwansei Gakuin University, Nishinomiya, Japan

## ABSTRACT

O. Theodor Benfey begins the interview with a description of his childhood in Germany during the rise of the Third Reich. He tells of his experiences in England, where he was a student during the war, and then his move to the United States for a postdoctoral fellowship at Columbia University. He describes the development of his interest in physical organic chemistry and structure, and the history of chemistry, and recounts his career as a professor of chemistry and history of science at Haverford, Earlham, and Guilford Colleges. Benfey also tells of his parallel career as a writer, translator and editor and gives details of the various translations he has published, and recalls his term as editor of Chemistry magazine. He concludes with his memories of his studies in Japan and China and his current interests.

## INTERVIEWER

James J. Bohning, Assistant Director for Oral History at the Chemical Heritage Foundation holds the B.S., M.S., and Ph.D. degrees in chemistry. He was a member of the chemistry faculty at Wilkes University from 1959 until 1990, where he served as chair of the Chemistry Department for sixteen years, and chair of the Earth and Environmental Sciences Department for three years. He was Chair of the Division of the History of Chemistry of the American Chemical Society in 1986, and has been associated with the development and management of the Foundation's oral history program since 1985.

## TABLE OF CONTENTS

- 1 Family, Childhood, and Early Education  
Grows up as a Lutheran of Jewish ancestry in Germany during the rise of the Third Reich. Emigrates to England to live with the Mendl family and attend Watford Grammar School, while parents move to United States. Enjoys math classes, and interest in science develops.
- 11 University College, London  
Moves to Aberystwyth during war. Has some contact with Ingold during undergraduate years. Becomes a Quaker. Insists on conducting only non-war-related research as graduate student. Studies aliphatic substitution and solvent effects. Not encouraged to keep abreast of outside research.
- 27 Postdoctoral Traveling Fellowship, Columbia University  
Immigrates to United States, reunites with family. Studies mercury-catalyzed solvolysis and olefin formation. Considers switching to medicine.
- 35 Haverford College  
Teaches physical organic chemistry mechanisms and chemistry for non-majors. Supervises undergraduate research. Receives Research Corporation grant for summer research. Publishes on history of chemistry. Active in Philadelphia Organic Chemists Club and Society for Social Responsibility in Science. Meets and marries Rachel Thomas.
- 45 Harvard University  
Lives with parents in Cambridge. Works with Conant's group. Enjoys studying the lives and original works of great chemists. Works on translations. Teaches history and philosophy of science courses. Studies structural theory, and with Westheimer the bipyridyl problem.
- 51 Earlham College  
Continues bipyridyl research. Works with Strong to develop new chemistry curriculum based on conceptual divisions and to create and publish Chemical Bond Approach materials. Edits Chemistry magazine. Continues publishing translations and history of chemistry. Becomes chair of HIST. Interest in geometry and structure increases. Professor of both chemistry and history of science.

- 77 Guilford College  
Urged by Hobbs to join faculty. Educates many for industrial positions. Students able to cross-register with other Greensboro schools. Active interdepartmental faculty interaction. Dana Professor of chemistry and history of science.
- 83 Far Eastern Studies  
Becomes interested in China and Japan while at Earlham. Studies Japanese and lives in Japan for a year to explore history of science in the Far East. Especially intrigued by uses of geometry in Eastern culture.
- 88 Early Retirement  
Retires early to devote time to other interests. Becomes Editor at the Beckman Center for the History of Chemistry. Moves to Bryn Gweled.
- 91 Notes
- 99 Index
