CHEMICAL HERITAGE FOUNDATION
Oral History Program
FINAL RELEASE FORM

This document contains my understanding and agreement with Chemical Heritage Foundation with respect to my participation in a tape-recorded interview conducted by

David C. Brock on 4 December 2001

I have read the transcript supplied by Chemical Heritage Foundation.

1. The tapes, corrected transcript, photographs, and memorabilia (collectively called the "Work") will be maintained by Chemical Heritage Foundation and made available in accordance with general policies for research and other scholarly purposes.
2. I hereby grant, assign, and transfer to Chemical Heritage Foundation all right, title, and interest in the Work, including the literary rights and the copyright, except that I shall retain the right to copy, use, and publish the Work in part or in full until my death.
3. The manuscript may be read and the tape(s) heard by scholars approved by Chemical Heritage Foundation subject to the restrictions listed below. The scholar pledges not to quote from, cite, or reproduce by any means this material except with the written permission of Chemical Heritage Foundation.
4. I wish to place the conditions that I have checked below upon the use of this interview. I understand that Chemical Heritage Foundation will enforce my wishes until the time of my death, when any restrictions will be removed.

Please check one:

a. _____

No restrictions for access.

NOTE: Users citing this interview for purposes of publication are obliged under the terms of the Chemical Heritage Foundation Oral History Program to obtain permission from Chemical Heritage Foundation, Philadelphia, PA.

b. _____

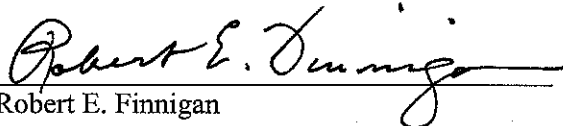

Semi-restricted access. (May view the Work. My permission required to quote, cite, or reproduce.)

c. _____

Restricted access. (My permission required to view the Work, quote, cite, or reproduce.)

This constitutes my entire and complete understanding.

(Signature)

Robert E. Finnigan

(Date) _____

This interview has been designated as **Free Access**.

One may view, quote from, cite, or reproduce the oral history with the permission of CHF.

Please note: Users citing this interview for purposes of publication are obliged under the terms of the Chemical Heritage Foundation Oral History Program to credit CHF using the format below:

Robert E. Finnigan, interview by David C. Brock at Los Altos, California, 4 December 2001 (Philadelphia: Chemical Heritage Foundation, Oral History Transcript #0227).

Chemical Heritage Foundation
Oral History Program
315 Chestnut Street
Philadelphia, Pennsylvania 19106

The Chemical Heritage Foundation (CHF) serves the community of the chemical and molecular sciences, and the wider public, by treasuring the past, educating the present, and inspiring the future. CHF maintains a world-class collection of materials that document the history and heritage of the chemical and molecular sciences, technologies, and industries; encourages research in CHF collections; and carries out a program of outreach and interpretation in order to advance an understanding of the role of the chemical and molecular sciences, technologies, and industries in shaping society.

ROBERT E. FINNIGAN

1927 Born in Buffalo, New York on 27 May

Education

1949 B.S., United States Naval Academy
1954 M.S., electrical engineering, University of Illinois
1957 Ph.D., electrical engineering, University of Illinois

Professional Experience

United States Air Force
1949-1954 2nd Lieutenant, 1st Lieutenant with assignments to strategic Air Command,
University of Illinois (student officer), U. S. Air Force Institute of
Technology (Instructor), Ph.D. Special Student
1954-1959 Captain

University of California-Lawrence Livermore Laboratory
1957-1959 Head, Nuclear Reactor Control Group
1959-1962 Senior Scientist

Stanford Research Institute
1962-1963 Senior Research Engineer

Electronic Associates, Inc.
1963-1967 Director, Scientific Instruments Division, Palo Alto, CA

Finnigan Corporation
1967-1990 Founder, President, Vice Chairman, Senior Vice President
1990-present Vice Chairman Emeritus, Consultant

Honors

1975 Distinguished Alumnus Award, Department of Electrical and Computer
Engineering, University of Illinois
1980 Alumni Honor Award for Distinguished Service in Engineering, College of
Engineering, University of Illinois
1994 Pioneer in Analytical Instrumentation-Mass Spectrometry, Society for Analytical
Chemists of Pittsburgh and Pittsburgh Conference on Analytical Chemistry

- 1999 Winston Churchill Medal of Wisdom
- 1999 Wisdom Hall of Fame
- 1999 Instrumentation Hall of Fame, Pittsburgh Conference on Analytical Chemistry and Analytical Chemistry Society
- 2002 Robert E. Finnigan Professorship established at Keck Graduate Institute of Applied Life Sciences, Claremont, CA, by outside donors to Keck

ABSTRACT

Robert E. Finnigan begins the interview with a description of his family and childhood years in Snyder, New York. Finnigan developed an interest in military service and science while reading *The Dave Darrin Series* about a new recruit at the United States Naval Academy [USNA] and while building World War II model airplane replicas as a young boy. After entering the USNA in 1945, Finnigan became fascinated with electronics and realized that he wanted to continue his electrical engineering [EE] education at a graduate level, so he enrolled in an Air Force Institute of Technology program, which allowed qualified officers to enter graduate school after three years of service. While in the AFIT program, Finnigan met and married Bette E. Finnigan. In 1952, Finnigan became a “student officer” in EE at the University of Illinois at Urbana. After receiving his Ph.D. in 1957, Finnigan joined the Lawrence Livermore National Laboratory [LLNL], formerly the Lawrence Livermore Radiation Laboratory. While at LLNL, Finnigan worked on the development and application of nuclear ramjet reactors such as the TORY II-A and TORY II-C. Subsequent to working on ramjet reactors for five years, Finnigan decided to pursue process controls research at SRI [Stanford Research Institute]. At SRI, Finnigan became interested in the prospects for the quadrupole mass spectrometer as an advanced instrument for process control. As awareness of the quadrupole grew, Finnigan and his division were persuaded by EAI [Electronic Associates Incorporated] to leave SRI in order to start a process-systems group and quadrupole development. Finnigan remained at EAI, in the Scientific Instruments Division producing quadrupoles for academic and industrial use, for four years. In 1967, Finnigan resigned after EAI’s attempt to sell the Scientific Instruments Division failed and EAI rejected his idea to venture into the GC-MS [gas chromatography mass spectrometry] market. Later that same year, Finnigan formed Finnigan Corporation with assistance from Roger Sant and T. Z. Chu. Via Finnigan Corporation, Finnigan continued to research and develop quadrupoles and GC-MS. Finnigan concludes the interview with a discussion of his hobbies and family, reflections on Thermo Instrument Systems’ acquisition of Finnigan Corporation, and thoughts on the Finnigan Corporation of today.

INTERVIEWER

David C. Brock is Program Manager for Educational and Historical Services at the Chemical Heritage Foundation in Philadelphia. He is currently a Ph.D. candidate in the History Department, Program in the History of Science at Princeton University. In 1995, Mr. Brock received his M.A. in the History of Science from Princeton University and in 1992, he earned a M.Sc. in the Sociology of Scientific Knowledge from the University of Edinburgh.

TABLE OF CONTENTS

- 1 Childhood and Early Education
Growing up in Snyder, New York. Parents. Siblings. Extracurricular activities.
Early interest in science and military service. Effect of World War II. Decision to attend the United States Naval Academy.
- 15 United States Naval Academy
Preparatory school. Curriculum. V-5 and V-12 programs. Hazing. Sports.
Decision to join the United States Air Force.
- 19 United States Air Force
Air Force Institute of Technology [AFIT]. Air Tactical School. Strategic Air Command at March Air Force Base. Applying to graduate school for electrical engineering [EE].
- 22 University of Illinois at Urbana
EE curriculum. Meeting and marriage to Bette E. Finnigan. ILLIAC I. General Swofford's Special Ph.D. Program. AFIT. Ph.D. thesis on non-linear servomechanism theory. Teaching antenna theory at AFIT.
- 29 Career at Lawrence Livermore National Laboratories [LLNL]
Herbert York. Ramjet nuclear engine. TORY II-A. TORY II-C. P. Michael Uthe Jr. Herbert York and Harold Brown. LLNL work ethic. Coors Porcelain Company. Decision to move to SRI [Stanford Research Institute].
- 41 Career at SRI
P. Michael Uthe Jr. Quadrupole mass spectrometry. Allan E. Lee. Market research survey. IBM Corporation. Phill Wadsworth. EAI [Electronic Associates Incorporated].
- 46 Career at EAI
Scientific Instruments Division. Aerojet General Corporation. NERVA Project. Beckman Instruments, Inc. Joseph Lewis. Market research survey. Development of quadrupole for process instruments via SRI funding. Kenneth R. Shoulders. Thomas R. Conklin. Michael S. Story. Richard Greenan. Loren Wright. Ultek System International. Quadrupole's wide acceptance and use. EAI's decision to sell. Hewlett-Packard Company. Syntex Corporation. Roger Sant. P. Michael Uthe Jr., Richard Greenan, and Loren Wright form Uthe Technology Incorporated. Interest in the GC-MS [gas chromatography mass spectrometry] market. EAI's rejection of GC-MS. Resignation.
- 69 Career at Finnigan Corporation
Decision to create Finnigan with financial assistance from Roger Sant and T. Z. Chu. EAI's disapproval. Reflections on P. Michael Uthe's departure. Fate of EAI.

Michael S. Story. William Fies. Jonathan W. Amy. GC-MS development. Walter E. Reynolds. Acquisition of Disc Instruments. Model 1015 GC-MS. Evan C. Horning. Systems Industries. Acquisition of Quantamatrix Corporation. The EPA [Environmental Protection Agency] and the Model 1015/System 150. EPA Consent Decree Program. Reasoning for taking Finnigan public in 1972. The “culture” of Finnigan. Roger Sant’s departure.

92

Conclusion

Hobbies and interests. Family. American Electronics Association [AEA]. Organization Internationale Metrology Legale [OIML]. AEA and the environment. Acquisition of MAT GmbH. T. Z. Chu. Thermo Instruments Systems, Inc. George N. Hatsopolous. Thermo Electron Corporation. Arvin Smith. Gratification from serving on the boards of various small companies. Thermo Instrument Systems’ acquisition of Finnigan Corporation. Ian Jardine. The Finnigan Corporation of today.
